I've had three brain injuries in the last 40 years. But by the next day, I have forgotten. Tech news. However, a person's brain could spend Comatose: The Stuff of Nightmares in more active states while coming into or out of the induced coma, just like when people go under anesthesia. While we don't know much about his recovery yet or what he will remember – the spokeswoman said he will "continue his long phase of rehabilitation" – we do know that doctors began the process of bringing him out of the coma in February. I worry it is taking a awfully long time to heal. Close Thesaurus. The stuff of nightmares is a gripping imaginative tale from Noughts and Crosses author Malorie Blackman.
