Irish Statute Book

For anyone who walks through the forest, the most obvious living things all around will be plants. Even more sophisticated are the tiny parachutes used by members of the daisy family, such the colour acts as an advertisement for birds, who have good colour vision. The second problem is how to protect the seed itself.

What is the 'Monsanto Protection Act'? | MNN - Mother Nature Network

The Monsanto Company was an American agrochemical and agricultural biotechnology. Its seed patenting model was criticized as biopiracy and a threat to . In , Monsanto acquired G. D. Searle & Company, a life sciences .. potential violations of the Plant Protection Act. The discovery threatened world- leading US.
