It then moves into the realm of the gas giants with the Voyager probes and Cassini's ongoing exploration of the moons of Saturn. Or subscribe today for full access.

Illustrated with striking color images, "The Universe in a Mirror" describes

But it took an amazing amount of work and perseverance to get the first space telescope up and running. The earliest known galaxy merger occurred shortly after the Big Bang.

So this is one of the things that's an example of how Hubble's images are understood

he forgot to include the 15 percent of the crew who come from Europe.
