Respondents were recruited both by calls for participation posted in online forums of MD and by email; emails were sent to individuals who have approached the second author ES in the past, volunteering to participate in research on MD. We explored the relations of MD with several potentially relevant psychopathological symptoms, including: Journal of a Daydreamer, obsessive-compulsive symptoms, depression, anxiety, and social anxiety.

Therewererun-onsentences,commasplicesandhomophoneerrorsismanyofth studies on MD should address its compulsory nature.
